### FUTUREPROOFING GOVERNANCE & CYBER-PEACE

Dear Friends,

I hope this finds you and yours safe and healthy in these incredibly challenging and difficult times.

This issue has two future-gazing resources - one on needed corporate governance changes post-Covid and the other on building long-term cyber-peace in our super turbulent times:

- My latest article ["Futureproofing Post-Pandemic Governance"](#) for Diplomatic Courier Magazine. I started a discussion about this topic on [LinkedIn - please add your thoughts if you're so inclined](#).
- A YouTube video panel [conversation on "Pathways for Cyber Peace in an Age of Constant Conflict"](#) sponsored by the Foreign Policy Association and NYU's Center for Global Affairs (where I teach).

Please stay safe, healthy and may peace be with you,

[Andrea](#)

Delighted to share my latest piece "Future-proofing Post-Pandemic Governance" for [Diplomatic Courier](#) & their extended [#Pandemic](#) coverage <https://bit.ly/2LVvzJA> TY [Ana Rold](#) & [Dante A. Disparte](#)

Among my [#governance](#) prescriptions for [#boards](#) to consider now (not tomorrow):

1. Practice Lean-in Governance—no more “friends and family” boards
2. Restructure the Board and Reboot - Ask:
  - o Who’s on your board? [#diversity](#)
  - o Does your board reflect your customer base?
  - o Is [#ESG](#) or [#ESGT](#) (+ [#technology](#)) on your board agenda?
3. Hire Only High [#Integrity](#) Emotionally Intelligent CEOs
4. Turbocharge [#Strategic](#) [#Risk](#) & ESGT [#Sustainability](#) Governance
5. Incorporate [#Preparedness](#) into the Permanent Board Agenda

It's time to turbocharge ESGT [#Stakeholder](#) [#risk2value](#) [#transformation](#) - if not now, when?
