***"It's an ESGT Crisis World"***

---

Dear Friends,

The final days of an eventful, ESGT crisis ridden summer (in the

Northern Hemisphere) are coming to an end, breaking all kinds of climate change-related records. And, as we "return" to some semblance of work / life balance in a still Covid infested world, things are quite different from previous years (pre-2020) and are bound to continue to change fairly dramatically.

Buckle-up, mask-up, vax-up and care-up.

In that vain, I have various ESG and ESGT related resources to share with you in this issue of #ESGT Impact, some in English and some in Spanish:

- The leading US based [Latin America Think Tank, The Inter-American Dialogue](#) recently hosted an animated and informative webinar in which I and several leading experts discussed the ESG landscape around the Western Hemisphere. [View the webinar here.](#)
- GEC Risk is once again teaming up with our great Spanish partner and leading think tank, Corporate Excellence, to offer a [hybrid online/live Program on "Gestion de Riesgos Reputacionales y ESGT"](#) in Spanish. I look forward to meeting another great and diverse cohort of European and American executive participants!
- In early October, I am joining a panel on ["Ethics and Compliance and ESG: The Next Horizon"](#) at the [Annual Navex Next 2021](#) online conference.
- I am thrilled to be back for my 9th consecutive [NACD Global Summit](#) to speak on the panel ["Ask the Experts: BlackSwans, Grey Rhinos and Crisis Preparedness"](#) on October 7, 2021.
- The virtual Brazil-based [Symetria Latin America ESG 2021 Conference is coming up on November 9th](#) - billed as the first Latin-America-wide ESG conference, I have the privilege of leading a panel named for my ESGT concept - ["ESG+T: Boosting Innovation through Technology"](#). [Registration is free.](#)

Until the next time, stay healthy, stay well, take care of yourself and others and stay in touch!

All the best,

[Andrea](#)

### E&C and ESG: What's on the Horizon

ESG is evolving – quickly. Expected new regulation and a heightened need for investment to respond. But as the scope of ESG is cross-functional by nature, who is best fit to lead? And how do risk teams play?
