---

Hello Friends,

They say that "you can't go back home again" but I had the privilege to do just that this past week retuning to my childhood hometown, Malaga, Spain, for a major high school reunion.

For those of you who know Malaga you know it is a gorgeous Mediterranean, warm, sunny, culturally and historically rich place with deep Greek, Phoenician, Roman and Arabic influences (not to mention Picasso's birthplace) and the greatest people you'd ever want to meet. Some of them are my lifelong best friends. This visit was truly an elixir for the soul. See four of the hundreds of photos I took in the collage above.

And, for those of you who don't know Malaga, what are you waiting for?

It's been a super busy but productive month:

- We launched the 3rd Annual Edition of ["The ESGT Megatrends Manual 2023-2024 - A Simple Guide for Futureproofing in Complex Times"](#) with Diplomatic Courier. If you missed our special launch newsletter don't fear - [you can freely access the Manual here.](#)
- I am delighted to have joined the [Institute of Corporate Directors Malaysia](#) as a Faculty member for their newly created, legally mandated [Board accreditation program "Leading for Impact"](#) which is all about the governance of sustainability and ESG.
- I was honored to be named one of the top 10 most read Thought Leaders in Sustainability for the past year by [ESG/Sustainability platform Illuminem](#) for a two part article titled "ESGT - Exponential Technology Requires Exponential Responsibility" co-written with my good friend Dante A. Disparte - [read Part 1 - The New ESGT Framework - here](#) and [read Part 2 - Use Cases and Futureproofing - here](#)
- Below check out an informational Table from The ESGT Megatrends Manual - from *Megatrend #1 "Exponential Tech Defying Governability"* - on "EU AI, Cyber, & Data Legislation" developments. Check [the Manual's many other Tables and Figures here.](#)

Have a great start to the summer in the North and Winter in the South - until the next one!

### Meet The Experts

The Mandatory Accreditation Programme Part II: Leading for Impact (LIP) aims to equip board directors with essential yet impactful content to help your organisation implement effective sustainability best practices, going beyond compliance. To achieve that, we have lined up various subject matter experts to address specific themes, bringing to the audience in-depth perspectives and practical guidance across every aspect of sustainability.
